PAINT

Color is everything, and painted finishes provide limitless possibilities, which is why Shiloh Cabinetry offers so many choices. Our diverse collection of standard paint colors is only the beginning. For those with a particular color in mind, our custom paint program lets you choose from the entire Sherwin Williams' palette of paint colors. Visit your local retailer for more details.

GLAZE AND HIGHLIGHT OPTIONS ON PAINT

Shiloh also offers additional finish techniques on paint. Available on most paint colors, our glaze or highlight options add an extra level of character for a more antiqued appearance. The brushing add-on is only available with a highlight and adds subtle brush strokes to the highlighting process. Variation of intensity and direction are common and expected with all glazes, highlights and brushing techniques.

STAIN

The beauty of wood is showcased with our carefully selected palette of stains. Our staining process enhances the various wood species that we offer, resulting in a beautifully finished piece of furniture for your home. When you add a glaze or highlight to one of our stains, you add an extra layer of depth and a change to the color tone, for even more possibilities. From traditional colors to modern interpretations, you are sure to find the right finish.

GLAZE AND HIGHLIGHT OPTIONS ON STAIN

By choosing a glaze or highlight, you add even more character to the finish. With several options of glaze or a subtle highlight, our hand-wiped process adds a layer of color that changes the underlying stain for a deeper, richer appearance. As this is a hand-applied technique, variation in the amount and location of glaze material will vary from piece to piece and within the same piece. Variation adds to the character and should be expected.

SPECIALTY FINISHES

OLDEWORLD

Olde World is a painted finish, hand-distressed to simulate an aged and heavily worn appearance. The Olde World finish features a random combination of some, or all of, the following finish techniques: Worm holes, crackle, edge and panel gouging, rock dents, wearing, brushed highlight and more. Olde World is available on a select number of standard paint colors and on most wood species.

FINISHES

OLDE WORLD FINISH TECHNIQUES

AGED

The Aged Technique is a predetermined selection of numerous finish techniques to create a worn and aged appearance. The techniques possible are: worm holing, edge and panel gouging, wearing, and rock dents. The level of "Aging" is very random and inconsistent from piece to piece. The Aged Technique can be applied to all wood species (excludes Select Poplar) on any stain or paint color.
